ting Bags, Rubber Boots, and Shoe Rubber Hos-

es, etc., etc.

At wholesale and retail, by M. LEIGHTON,

34 Washington Street, Boston, Mass.

MR. MARSH'S EXPERIMENTS.—The Spring

field *Republique*, speaking of the somerset created in Paris by Mr. Sanford, our *Change d'Affaires*, appearing in the plain dress of an American citizen, in accordance with the instructions of the Secretary of State, says:

"Mr. Marsh, encouraged by his success in his first tailoring experiment, gave the charge of 12-1/2 cents for 'bounding hose.' In his account as Judge in New York, seems to have ventured upon a second one, which is likely to prove quite as creditable to him as the first did."

The *Paris Lays*—The National Land office has recently withdrawn from entry and public sale the lands lying fifteen miles on either side of the proposed air line of the railroad from Brandon, near the centre of Mississippi, to Montgomery in Alabama. The reason assigned is, that Congress may see fit to appropriate a portion at least of these lands to aid in building this new road.

The Administration thus abandons the Democratic principle of opposition to national appropriations in favor of internal improvements.

DEATH OF PROF. NORTON.—Professor Andrews Norton, formerly of Harvard College, and one of the most eminent literary men of Massachusetts, died at Newport on Sunday last.

IMPORTANT MEETING.—A meeting of Presidents and Directors of the railroads in the United States, will be held in Washington, in October, to prepare laws and measures to guard against accidents on railroads, and secure a uniform system of railroad regulation.

EXTRAORDINARY.—The Horner and Flying Cloud, two clipper ships, sailed on the same day from New York on a voyage of about 17,000 miles around a stormy cape, making the passage in 200 days, and both arrived in San Francisco on the same day, and within a few minutes of each other.

VALUE OF FEMALE CURIOSITY.—Miss Kline, who has just recovered \$500 of a widow in New Jersey, for a breach of marriage promise, proved her case by a female friend, who, to gratify her curiosity, listened and overheard the contract through a hole in the floor.

ESCAPE.—A young lady of Mississippi, 15 years old, and worth \$200,000 in her own right, recently escaped from Georgetown convent, and was married in Washington two days after. The lucky recipient of her hand and purse is G. N. Jordan, proprietor of Jordan's Springs, near Winchester, Va.

PROFOUND DIRECT.—An English paper says that one of the Australian steamers is troubled with a defect which admits the sea into the ship but does not allow it to escape again. An unpleasant peculiarity of mankind become *dicticately refined*.¹

A FAST PROPHET.—The St. Paul *Minuscule*, of the 25th ult., is responsible for the following. It is a fast way of doing business, and beats Australia and California all hollow:

One of Mrs. B.—'s pupils, a young lady, stepped into the schoolroom from the other morning, and came in gathering up her books, papers, Expresses, officials of every variety, all having daily to repeat the same thing in writing, use this method of printing, and save an immense amount of time.

Bank and Steamship Companies stamp their daily tickets, to prevent fraud.

IMPORTANT TO BAKERS! CRITCHERSON'S improved BREWING MACHINE.

Captions to manufacture the well-known Machine for making Beer, Bread, and soft Crackers, and Soda Biscuit, &c., &c.

Career of Curiosity and Friend Streets.

**C. H. HALE & CO.,
Manufacturers and Importers of
RUBBER GOODS,**

12 Bromfield St., Boston.

Right About Face—March!

A few months ago, President Pierce appointed a freesoil democrat to be the Postmaster at St. Johnsbury; whereupon the Hunker democrats remonstrated, and sought the proper aid in New Hampshire. The consequence is that Frank Pierce has *checkered* his own appointment; he had well warned his seat, and has appointed a Hunker in his place—one, it is presumed, in whose garments there is no odor of Vermont free soilism.—*Betham.*

BURLINGTON FREE PRESS, FRIDAY, OCTOBER 8, 1853.

ITEMS AT HOME AND ABROAD.

FANCY FOWLS.—The St. Albans *Messenger* is down on "blood" chickens. Hear him, do you the Credit China, Brahma, Peafowl, Shanghai, and other ornithological hell-goblins, five-storied fowls if they will, but we will not knowingly buy, sell, feed, or feed upon, anything of the kind; give us the active hens and roosters that feed, fat and flourish almost spontaneously in the barn-yards, and others are welcome to these India buzzards."

MENUAL Auctions.—The editor of the *Galen Jefferson*, who is a doctor "by trade," gives it as his deliberate advice that whisky should not be drunk in warm weather. He is equally decided on another point, viz.: that it should never be drunk when the weather is not warm.

MISCELLANEOUS.—A violent earthquake

was felt on the 13th at several watering places on the Gulf coast;—the mint in New

Orleans is turning out \$200,000 a month in new silver coins.—Another lady died almost

instantly at Palmyra, Mo., lately, from the sting of a hornet on her wrist.—A Texas mill contractor has failed to perform his services because the mosquitoes are so bad on his route as to make it dangerous to the life of man and beast.—Some dozen persons charged with murder are to be tried at the October term of the Criminal Court in Philadelphia.—Keepers of drinking saloons in New York, have "struck" and raised the price to a shilling a glass.—The European political refugees in Montreal propose to make a public demonstration in honor of Capt. Ingraham, One man murdered another at a meeting house in Virginia on the 18th, during services of a protracted meeting.—A girl was burned to death by the explosion of a can of extract of Orange, in New York, on Saturday.

Mr. May's Experiments.—The Spring

field *Republique*, speaking of the somerset

created in Paris by Mr. Sanford, our *Change d'Affaires*, appearing in the plain dress of an

American citizen, in accordance with the in-

structions of the Secretary of State, says:

"Mr. Marsh, encouraged by his success in his first tailoring experiment, gave the charge of

12-1/2 cents for 'bounding hose.' In his ac-

counts as Judge in New York, seems to have

ventured upon a second one, which is likely

to prove quite as creditable to him as the first did."
